

New Mining Project - Questionnaire

We at **RMS Ross Corporation** wish to do everything that we can to help you and your company acquire the equipment that is best suited to your property and your specific mining situation.

Would you, or whomever from your mining project team you would recommend to do so, please reply to this questionnaire and provide us with answers to the questions below. If all the answers are not yet known, please fill out what is known, and we can address the others at a later date when the project has evolved further.

This questionnaire will allow us to open a file on your project and begin necessary steps toward assisting you to achieve the highest level of mining success with your venture.

1) Company name; key contact names and numbers; details on the mining property name and location

Company:	Contact:
Address:	Phone:
	Fax:
	Email:
Location of Mine / Project:	Country:

Further Related Details:

2) Ore body type _____

3) Mineralization that is present in this deposit _____

4) The range of metals / minerals that you are hoping to recover, if there are others besides gold that you wish to capture

5) Liberation size of the gold and / or any other minerals you wish to recover

6) Is crushing required to liberate the values?

7) Size range estimate of the feed material target metal in the deposit and estimated percentages:

GRAVEL SCREEN ANALYSIS

a) below 80 mesh	%
b) 20 - 80 mesh	%
c) 20 mesh to 1/4 inch	%
d) 1/4 to 1/2 inch	%
e) 1/2 to 4 inch	%
f) 4 to 12 inch	%
g) 12 inch to 3 foot	%
h) 3 to 6 foot	%
i) over 6 foot diameter	%

GOLD (OR TARGET MINERAL) SCREEN ANALYSIS

A) -400 mesh	%
B) 200 – 400 mesh	%
C) 100 – 200 mesh	%
D) 60 – 100 mesh	%
E) 20 – 60 mesh	%
F) 1/8" – 20 mesh	%
G) + 1/8"	%

8) Tonnage you wish to process per hour _____

9) Estimated value per ton of each target metal / mineral _____

10) Slope, elevation and description of the topography of the deposit _____

- 11) Status of Project: Currently in operation / production
 Pre-production – Tentative start-up date:
 Financing Pre-feasibility Feasibility Complete

12) Timeline to when you wish to be in production _____

13) Expected lifespan of the operation _____

Additional information:

Thank you for your answers to the basics of the mining project you are developing. This info will allow RMS-Ross Corporation to begin to assist you in every way possible towards your project's greatest success.

Best Regards,

Scott Plummer
